TO: City Council

FROM: Don A. Smith, Environmental Resources Superintendent
Public Works – Environmental Resources Division

SUBJECT: **Agreement For Supplemental Waste Transfer Hauling Services Between the City of Oxnard and Yura Trucking, Incorporated**

RECOMMENDATION

That City Council approve and authorize the Mayor to execute an Agreement For Supplemental Waste Transfer Hauling Services Between the City of Oxnard and Yura Trucking, Incorporated (Agreement).

BACKGROUND

For the past several years the Environmental Resources Division has used waste transfer haulers to supplement hauling for the City's fleet at the Del Norte Regional Recycling and Transfer Station (Del Norte Facility). During operations when there are too few City drivers and trucks to provide necessary hauling of waste, supplemental haulers are called upon to meet this need. This is especially evident during increased fluctuations of solid waste generated at the Del Norte Facility. Waste transfer haulers have hauled up to approximately 80,000 tons per year from the Del Norte Facility to designated landfills.

DISCUSSION

In December 2005, staff sent out a RFP for waste transfer hauling to 10 potential service providers. In response, Yura Trucking submitted the best proposal for waste transfer hauling. Yura Trucking has experienced managers and truck drivers who are well trained in waste long-hauling and safety practices. Yura Trucking has and currently performs effective, dependable and safe waste transfer hauling from the Del Norte Facility.

The Agreement (Attachment No. 1) provides supplemental waste transfer hauling from the Del Norte Facility to designated landfills upon the request of the City. The initial term of the Agreement is from August 1, 2006 to June 30, 2007. Thereafter, the parties may extend the Agreement in two successive one-year terms upon mutual written consent. Yura Trucking meets all required City provisions in the Agreement including the possession of a business license and appropriate certificates of insurance, and compliance with Oxnard's living wage. Based on Yura Trucking hauling rates and the projected

amount of waste hauled by Yura Trucking the estimated cost of this Agreement is $500,000. User fees collected from haulers tipping waste at the Del Norte Facility provide cost recovery for supplemental waste transfer hauling service.

Subject to City Council approval, staff recommends that City Council authorize the Mayor to execute an Agreement For Supplemental Waste Transfer Hauling Services Between The City of Oxnard and Yura Trucking, Incorporated.

FINANCIAL IMPACT

There are sufficient funds appropriated in Solid Waste Enterprise Fund Account Number 631-6304-842-8209 (Solid Waste/Processing & Disposal/Contractual/Professional Services) in the Fiscal Year 2006-07 budget that covers for the expense of this hauling service.

GD

Attachment #1 – Agreement For Supplemental Waste Transfer Hauling Services Between the City of Oxnard and Yura Trucking, Incorporated
