SUBJECT: First Amendment to Agreement for Trade Services with Ecology Auto Parts, Inc. for Supplemental Waste Transfer Hauling Services (Agreement No. A-7380)

RECOMMENDATION

That City Council approve and authorize the Mayor to execute the First Amendment to the Agreement with Ecology Auto Parts, Incorporated to increase the amount by \$150,000 from an agreement value of \$1,500,000 to \$1,650,000 and to extend the expiration date from February 15, 2012 to February 15, 2014, for supplemental waste transfer hauling services (Agreement No. A-7380).

DISCUSSION

For the past several years the Environmental Resources Division has used waste transfer haulers to supplement hauling for the City's fleet at the Del Norte Facility. During operations when there are too few City drivers and trucks to provide necessary hauling of waste, supplemental haulers are called upon to meet this need. This is especially evident during increased fluctuations of solid waste generated at the Del Norte Facility. Waste transfer haulers have hauled up to approximately 100,000 tons per year from the Del Norte Facility to designated landfills.

On October 14, 2010 the City issued a Request for Proposal (RFP) for Supplemental Solid Waste Transfer Hauling Service. Among the haulers that submitted proposals, Ecology provided the best overall proposal for waste transfer hauling. On February 15, 2011, the City Council approved the Agreement for Trade Services with Ecology for one year period through February 15, 2012 with an option to extend for one two-year period through February 15, 2014. Ecology performs effective, dependable and safe waste transfer hauling from the Del Norte Facility to designated landfills. The First Amendment executes the option to extend the agreement for one two-year period from February 15, 2012 through February 15, 2014 and will increase the agreement value by \$150,000 from \$1,500,000 to \$1,650,000.

FINANCIAL IMPACT

Funds are available in the Solid Waste Operating Fund Account Number 631-6304-842-8281 to cover the cost of supplemental waste hauling service by Ecology.
